I have peace of mind that my parents' assets are protected and their advice on elderly issues has been invaluable. – Terri Palmer

## **Why Use Senior Solutions Consulting**

# Team Approach

We often work closely with a client's existing legal and tax counsel, and when needed, engage our own retained counsel to assist with legal issues. When it comes to something as important as a parent's or family member's care, you should only work with the best... one with a proven success record.

### **Dedication**

As Indianapolis' only truly dedicated "Medicaid & VA" firm, gaining benefits is our only focus. You will experience complete satisfaction in our process and planning. This is all we do!

# Commitment

At SSC, we strive daily to quickly help families gain benefit approval. We work face to face with the local Medicaid and VA offices to ensure an accurate application process which results in quicker approvals.

### Value

Unlike other firms, our initial consultation is always free. Only after contracting with SSC is there a fee. Once engaged, we will work with our clients for life... never charging additional fees like most other firms. You pay us only once. Since you do not need an attorney to complete VA or Medicaid paperwork, why pay those high prices?

# Network

Our firm has created relationships with care facilities and providers in your area. Our experience and knowledge in the area of senior care allows us to recommend appropriate care solutions for our clients.

# Results

It can be difficult and frustrating to work with government agencies. It is common for us to have to resubmit information or reapply for benefits more than once. We meet with these agencies face-to-face as much as possible to gain favorable results. We don't stop until we get benefits.

I am more than pleased with the work done for my mother by Wes, Matt and the entire Senior Solutions Consulting group. It's the best investment I have made in my role as her primary care giver. They were able to navigate the complexities of the approval process. Due to their expertise and services I am able to provide her with better care without the headaches and red tape of figuring out how to successfully ascertain benefits. - Jeff French

A lifetime of savings can be lost to nursing home expenses quicker than you might think. With the cost of a nursing facility regularly reaching nearly \$100,000.00 per year, only a few people can afford to pay for care out of pocket for very long. Assisted living and in-home care options are less expensive, however, they can still put a large strain on a monthly budget. If you are concerned about the high costs associated with long term health care now or in the future, benefits are available to help with in home care, assisted living, and nursing home expenses.

### Myth Vs. Reality

*Myth:* Veteran's benefits can take up to two years to be approved.

Reality: A well crafted, thoroughly completed and hand delivered application can regularly be approved within 3 to 5 months.

Myth: One had to be overseas fighting to qualify for benefits.

Reality: As long as a veteran was in active duty during a declared time of war, they can qualify.

*Myth*: I wasn't injured in the war, so I don't qualify.

Reality: Service connected injury or disability is not required.

*Myth:* My husband passed away, so I cannot qualify for the VA benefit.

Reality: As long as the veteran and spouse were married at the time of death, the spouse can qualify for VA benefits.

Myth: Medicaid can take my house, car, money, social security and all of my possessions.

*Reality:* There are several rules that allow for the protection of the majority of a person's assets. Don't be misled by misinformation and myths.

*Myth:* Medicaid is only for the poor.

Reality: This is a long established benefit program available to those who qualify. The rules allow for protection of the majority of assets.
